

**NEW FAN
SERIES**

Fan Series

EDGE 5

EDGE 5
English

Lightweight and highly efficient

The new EDGE 5 blade profile is ideal for operating points and airflow resistance typically found in HVAC/R applications. The lightweight structure allows for a longer blade design resulting in the largest diameter range with minimum number of blades in its respective class.

Cooling Towers

Livestock Ventilation

Drying Kilns

Heat Exchangers

EDGE5 blade material

Designed for HVAC/R applications

The EDGE 5 blade profile has been specifically developed for HVAC/R applications. The broad profile body and unique shape provides high airflow volumes at low rpm.

The EDGE 5 Fan Series
